Summary

Senior Information Security Analyst with 6+ years of experience in cloud security architecture, infrastructure governance, and enterprise compliance across GCP, Azure, and AWS. Proven expertise in Zero-Trust architecture, privileged access management, and software supply chain hardening. Led ISO 27001, SOC 2 Type II, and GDPR/CCPA compliance programs. Skilled in automating security workflows, managing cross-functional teams of 20+, and bridging security operations with business outcomes at scale.

Professional Experience

Senior Information Security Analyst, Osmos 2025 – Present

Cloud Security, Governance & Compliance

Cloud Security & Zero-Trust: Engineered and deployed GCP Privileged Access Management (PAM) entitlements as Terraform code, establishing scoped role tiers and enforcing Zero-Trust principles. Transitioned legacy VPNs to encrypted Tailscale remote access. Triageed and resolved 42 critical GCP Security Command Center findings. Provisioned production-grade GCS buckets enforcing UBLA and PAP for developer workloads.

Compliance & Threat Management: Led ISO 27001:2022 Stage-2 Surveillance Audit (zero major NCs) and managed the full SOC 2 Type II audit lifecycle yielding a clean report. Executed global data protection audits across GDPR/CCPA. Automated security audits across 524+ code repositories, implemented strict semantic version pinning, and integrated code review dashboards into CI/CD workflows. Conducted offensive VAPT across web, mobile, and ad-serving platforms. Engineered an LLM-powered knowledge base to auto-answer security questionnaires and vendor TPRM forms. Modernized 54 governance policies.

IT Operations & Network Security: Led domain-wide Google Workspace migration across 267 accounts and optimized 56 enterprise AI licenses. Diagnosed MDM device compliance policy conflicts and re-architected OS update policies. Designed email brand authentication (BIMI/VMC with DMARC p=reject) and neutralized an active invoice-fraud phishing campaign. Hardened networks with gateway traffic shaping and DHCP IP-MAC binding. Owned the Business Continuity Plan (BCP) and Disaster Recovery (DR) testing lifecycle.

Lead Systems Engineer, MAQ Software March 2025

Served as Global Administrator for the Azure AD tenant, overseeing directory-wide configurations, Conditional Access policies, compliance settings, and privileged identity workflows. Led the design and implementation of secure cloud architectures across Azure and Microsoft 365, driving ISO 27001 readiness and enforcing Zero Trust principles. Automated access governance and compliance reporting using Microsoft Purview, Power BI, and Microsoft Graph API. Mentored engineers and enhanced tenant-wide monitoring and visibility.

Senior Systems Engineer, MAQ Software March 2024 - March 2025

Migrated over 200 projects to Azure DevOps with CI/CD pipelines, achieving 15% efficiency improvement and 20% cost reduction. Configured secure Azure networking (VNets, NSGs, Application Gateway), optimized cloud spend with cost management tools, and automated provisioning using PowerShell and Microsoft Graph.

System Engineer, MAQ Software April 2021 - March 2024

Delivered secure and scalable infrastructure across Azure and AWS; designed hybrid network architectures supporting a 1500-person workforce. Built automated deployments using Terraform and ARM templates in collaboration with DevOps teams. Managed cross-location teams of 20+ members.

Business Development Associate, Think and Learn Pvt Ltd (BYJU'S) July 2020 - September 2020

Conducted CRM-driven lead generation, improved customer outreach, and executed targeted digital marketing campaigns to support sales growth.

Certifications

Microsoft Certified: Information Security Administrator Associate (SC-401)	April 2024
Microsoft Certified: Identity and Access Administrator (SC-300)	April 2024
Microsoft Certified: Azure Network Engineer Associate (AZ-700)	April 2024
Microsoft Certified: Azure Virtual Desktop Specialty (AZ-140)	April 2024
Microsoft Certified: Azure Security Engineer Associate (AZ-500)	December 2023
Microsoft 365 Certified: Security Administrator Associate (MS-500)	December 2023
Microsoft Certified: Security Operations Analyst Associate (SC-200)	December 2022
Microsoft Certified: Azure Administrator Associate (AZ-104)	December 2021
End to End Internet of Things Professional at hIOTron, Pune (Link)	July 2018

Skills

ISO 27001 / SOC 2 GDPR / CCPA / DPDPA	GCP IAM / PAM Entra ID (Azure AD)	Terraform / IaC GitHub Actions CI/CD	Microsoft Sentinel (SIEM) GCP Security Command Center
VAPT / Incident Response	RBAC / Conditional Access	Python / Bash / PowerShell	Power BI / KQL
TPRM / ISMS	Zero-Trust Architecture	Google Apps Script	Azure Synapse / Databricks
Supply Chain Hardening	MDM (Intune / Hexnode)	Power Automate / Graph API	Cloud SQL / GKE / Cloud Run

Projects

[Supply Chain Security & Code Repository Audit](#) 2026

Automated org-wide security audit across 524+ code repositories, confirming zero active IOCs and patching critical dependency vulnerabilities across 42 repositories. Implemented strict semantic version pinning and integrated automated code review security dashboards into CI/CD workflows.

[GCP Zero-Trust Architecture & PAM Deployment](#) 2025 – 2026

Engineered production-grade GCP PAM entitlements as infrastructure-as-code, transitioning legacy VPN to encrypted Tailscale remote access. Provisioned secure GCS buckets with UBLA and PAP; configured least-privilege IAM bindings for cross-environment workloads; triaged 42 critical SCC findings.

[Enterprise Compliance Automation Platform](#) 2025 – 2026

Built automated compliance monitoring across ISO 27001, SOC 2, GDPR, CCPA, and DPDPA frameworks. Engineered an LLM-powered knowledge base (Gemini/Claude) to auto-answer security questionnaires, vendor TPRM forms, and DPIA/PIA documents. Modernized 54 governance policies with LLM-assisted analysis.

[AI-Powered PR Review Agent \(DevFlowBot\)](#) 2025

Built an autonomous AI agent that automates frontend development workflows—listens to email requests, generates code via Google Gemini, runs QA checks, and opens Pull Requests with human-in-the-loop approval gates, smart intent classification, and context-aware iterative refinement.

[Cloud Automation & Access Management](#)

Built automated workflows for user onboarding/offboarding, cost management, and access control using PowerShell, Microsoft Graph API, Azure Data Factory, Power Automate, and Entra ID. Improved reporting via Power BI and streamlined group/user management across M365.

[DevOps & Migration](#)

Migrated source control from GitLab to Azure DevOps, enabling CI/CD integration and optimizing repositories for scalability and version control across 200+ projects.

Education

B.Tech in Computer Science , Lovely Professional University, India CGPA: 7.2 / 10	2016 - 2020
Higher Secondary Certificate (HSC) , Dr. Babasaheb Ambedkar Jr College Percentage: 62%	2013 - 2014
Secondary School Certificate (SSC) , Christanand School and Jr College Percentage: 82%	2011 - 2012

Additional Experience

Campus Ambassador , Paytm	Apr 2018 - Jul 2018
Promoted cashless payment solutions across campus, built brand awareness, and acted as a liaison between Paytm and the student community.
